

**Simplifying  
Supply Chains  
since 1962.**

**47 years of  
Full Service Product Development**

**Providing custom solutions  
to the most difficult sheet  
metal fabrication, assembly  
& shielding problems.**

**Put our experience to work.**

**Our 40,000 square foot facility  
is conveniently located 7 miles  
west of O'Hare Airport-Chicago.**

**Contract Manufacturing**

- ❖ Prototypes
- ❖ Short Lead Times
- ❖ Small Batch
- ❖ Production Runs
- ❖ Quick-Turn Runs
- ❖ Ship-to-Stock
- ❖ Consigned Stock
- ❖ Blanket Orders

**Our Customers**

design and build systems for Commercial and Military Aircraft, Spacestations and Satellites, Military Weapons and Vehicles, Medical and Lab Equipment, Food and Industrial Products and many other markets that need suppliers to be full-service partners.

As a Certified Supplier to major OEMs, we assist our customers from prototype to production, providing the best manufacturing value for custom close-tolerance components and assemblies.

Our customers are confident that their designs will be produced to the same high standards today and for decades into the future.

*Serving both government and commercial OEMs, we offer quick quotes, rapid prototypes, and fastest time to market -- whether the products require the demands of highly documented and certified government products or the more economical "form/fit/function" specifications of commercial products.*

*First Article Inspections Reports, material and process certifications, and historical record keeping are standard procedure at MRL Industries.*

**Quality . . .** *above the best.*

An **ISO 9001:2008** company, we perform to "best in class" levels of stringent quality requirements.
